Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Monday 03 May 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Becoming wet and windy from the west today.

Today:
Early rain over Northern Ireland spreads eastwards reaching the far east of the UK this afternoon. Rain then heavy at times and also some snow on Scottish mountains. Becoming windy, especially in southern and western UK, with coastal gales.

Tonight:
Early evening rain over England clearing, clearer spells and showers already over Ireland and Wales following. Scotland staying cloudier with rain and hill snow. Windy, especially this evening.

Tuesday:
An unsettled and chilly day with a fair amount of cloud and showers or longer spells of rain. Best conditions southwest England and far north Scotland. Less windy than today.

Outlook for Wednesday to Friday:
Sunshine and showers, wintry at times in the north. Rain across the south on Thursday. Light winds; rather chilly by day with widespread overnight frosts.
